

# matrix H<sup>®</sup> BLEND

## MATRIX H BLEND TURF

Matrix H<sup>®</sup> Blend turf combines the extremely durable and resilient Helix monofilament fibers with ultra durable XPS bi-axial fibers. The Helix fibers feature Shape Memory Technology, which twists the monofilament fibers into a Helix shape so that they spring back with use and secure the infill in place.

# matrix H<sup>®</sup> BLEND

PILE WEIGHT	45 – 52 oz./sq. yd.
PILE HEIGHT	1.75" – 2.5" (+/- 1/8")
TURF FIBERS	100% polyethylene, 8 monofilament, 1 bi-axial fiber
RESIN	Polymer LLDPE
BLADE SHAPE	2 blade shapes, 1 twisted in 2 sizes and 2 colors

## MATRIX<sup>®</sup> H<sup>®</sup> BLEND TURF FIBERS

Matrix H Blend uses a combination of ultra durable XPS bi-axial fibers and coiled monofilament Helix fibers – providing a soft and strong surface.

## INFILL & PEA GRAVEL

TenCate offers a variety of infill options including **Realfill<sup>®</sup>** infill made of dust-free SBR granules.

The **pea gravel** holds the system in place while assisting with shock absorption and drainage.

## K29 BACKING

The fibers are tufted into a multi-layer warp-knitted durable backing.

## SEAM LOCK

A durable adhesive for exceptionally strong system seams.

## CUSHDRAIN<sup>®</sup>

The recommended **Cushdrain<sup>®</sup>** pad is a monolithic, paved-in-place elastic layer which enhances shock absorption, extends turf longevity, and may be utilized for multiple field life cycles.

## DRAINSTONE

The foundation is a free-draining stone base, which allows for superior water migration, stability, and field planarity.
